STATE DEMOCRATIC TICKET

FOR G VERNUR. JOHN W. DANIEL, OF LYNCHBURG. FOR LIEUTENANT GOVERNOR, JAMES BARBOUR, OF CULPEPER. FOR ATTORNEY GENERAL

P. W. McKINNBY, OF FARMVILLE

Here's a sample of the civil service reform of which Storetary Windom and Postmaster Gen. eral James speak in such high sounding phrases. It is taken from the Valley Virginian,

MONDAY BYBNING, AUGUST 8

wing of that par 3:

*Republicans holding federal positions, in many instances, are not allowed to exercise the right of free citizens in support of the policy and principles of their party except at the risk of decapitation; while in the same line of service those of them who cowardly submit to the lash of the bossess, are permitted to work for the destruction of the party through whose agency they have been favored."

If the voters of this country were inflaenced by other things than money and sectional hatred, the republican party would be buried under a popular majority so large that its resurriction would be impossible.

A few years ago, before Colonel Cameron had become aware of the fact that repudiation was so popular with the negroes and republi cans of Virginia that it could elect a Sepator, and might, per chacce, elect a Governor, be, like most other Virginia democrats, not only thought, bu: said that "repudiation is robberg," and that radical tyranty would be too mild a ycke for a community of thieves." But knowledge has wrought a sad change in him, as it has in many other men, and he now thinks repudiation is right and radical tyranty the very thing for a community that would, if allowed, pay its just debte.

General Mahone's home o gio even yet attributes the submersion of one edition of the Virginia Liberal in the waters of the Potomee to the partisanism and protoription of the democrais of this city, and this, too, when, of the two parties charged with that act, one was a readjuster and the other a republican, and, not withstanding the fact that the General's Wash ington crean said the parties alluded to made a mistake is not throwing the editor instead of he said, to "keep from sipping." his paper overboard.

Rev. Dr. Newman says the crime of Guiteau shows three things: first, that ignorant men then silled the other to prevent its telling on her should not be allowed to vote; second, that foreigners should not be a lowed to vote, and third, that there should not be so much religious liberty. He also says the republicans of grand mass meeting which endorsed the nomirepudiating Mahonites. But like his radical the platform upon which they stand, with great

The Rome correspondent of the London Standard says that serious proprosals have been made to the Pope to transfer the seat of the Holy See to America.

A nibilist has been arrested at Belgrade. It is rumored that dynamite was found on his person, and cating a purpose on the part of the nihilists to kill the Czer of Rassia and the Emperer William.

The Golos, at St. Petersburg, has been suspended for six months for cruicising the conduct of the Prince of Balgaria and General Erorath and for exposing the disorder on board Russian men of war in foreign ports.

There were three thousand people yesterday at the meeting in Rome in favor of an abrogation of the Papal Guarantees law. Addresses were read from Garibaldi, Louis Bace and Victor Hugo. Police delegates refused to allow the resolution declaring the abrogation of the law indispensable to be put, and there was

some disturbance. The upofficial reports of the President's cindition regived at a late hour last night were far from encouraging. It is fested that another pus cavity has formed, and preparations were made for a thorough exploration of the wound for the purpose of ascertaining if possible the point at which the flow of pus has been interrupted. The President suffered somewhat from the expessive beat on Saturday, it being found impracticable to keep the temperature of his room much below 90 without closing the doors and windows, and this was not deemed advisable. The aftergoon fever was rather higher than usual, but it subsided before 10 o'clock, and the patient stept well, without inorphia. WASHINGTON, D. C., Aug. S. 1881. The President bas experienced another relapse. As stated in this correspondence several days ago, the bigh pulse be was reported to havefor all that is known of his condition seems to be founded upon hearses - was iccompatible with the steady improvement that, according to the bulletios, was in progress, and results have demonstrated the correctness of that statement. His pulse to day was so Ligh and the other evidences of inflammatory fever so apparent that his physicians, resident as well as consulting, after consultation, determined to risk another operation to relieve him of the suffering ocident upon what they beli ved was pas, for which there was not x t. Dr. Agnew, therefore, ter the parient had been rendered insensible to pain by the inbalation of ether produced, that is ex coded, the iccision made at the first operation to a point below the 12.h or last rib, so that the pus from the supposed site of the bullet will have a continu s downward flow. Another pus c vity was thus opened and a pus tube introduced into the track of the wound was pressing them down, and that the Mahone com a p lot e used rably lower than the other readjuster party was composed of a lot o one. He has now in his side the jagged hole demagogats, whose so'e object was to gratify made by the bullet and an opening nearly four their selfishness. There is a good deal or excitement here to day in consequence of this relapse, and the brokers are availing themselves of the opportunity it

affords of affecting the value of stocks. Latelligecoe here to d y from Virginia is the effect that the straightout delegates to the republican convention have a small majurity. but that notwithstanding this fact the Mahonites will probably capture the convention by buying a sufficient number of negro delegates elected as straightouts, and that they have made all necessary arrangements for that purpose and will commence operations upon the negro delegates as soon as they step off the cars at Lynchburg. It is no less certain, however, that in this event the straighouts will bolt, meet in another place and cominate a straight republican ticket on a pronounced debt paying platform, and that should it be evident to them that defiction from their racks wil be large enough to make the election of the Mahone ticket at all probable, they will, on election day. vote the regular democratic ticket, being assured that democratic success will be less injurious to the Siste's interest than that of the

repudiationists.
Mr. John R. Treker is in the city to day on his way to the White Sulphur Springs. He specks in the most enthusiastic terms of the ticket nominated by the recent democratic conelected by a large majority.

The necessity for the operation which was perormed upon the President this morning became apparent to the surgeons yesterday when they found that a drainage tube of the s z : hitherto used could no longer be passed along the track ot the ball between the ribs. The process of ginia. granulation at that point had gone on so far as so partially close the onfice and the ribs prevented the pushing aside of the flesh, which was healing between them, enough so that the tute could be introduced. The result of this state of things was that pus formed in the deeper parts of the wound rather faster than it could esc. pe thr. ugh the balf obstructed opening between the rios, and its gradual accumulaion begen to cause disturbance. It was there fore decided to make a new opening into the trick of the ball below the last rib, so that the ribs should no longer prevent the keeping open of the wound by the sould backing which then afforded to the granulating fi sh between them. The operation was performed at the request of the other surgeons by Dr. Agnew. A- soon as the patient had been put under the influence of ether, a long and slightly curved

[COMMUNICATED. Chesapeake Pirates Invading Westmoreland.

It is but a twelve month since we were happy in the possession of, and held undisputed jurisdiction over, large natural syster beds, sufficiently extensive to have given employment to fif y per cent of cur population.

Not only did these oysters exist in large quantities, but their quality was such that they would compare favorably with the finest in the world, and readily recommended them to all parties testing their merits. This large stock of oysters with their mossy ranks for miles covering the white-pebbled bottom of the royal old Potomac, had been accumulating from time im nemorial, and having been left undisturbed for ages, they were regarded by the honest yeomanry of West-moreland as a common inneritance, handed down from those forefathers who first braved the terrors of the Western wilds and established a habitation 'mid the unpruned forests of Vir

And now follow man after having supreme sway for generations, and when other field, are becoming exhausted, thereby enhancing the value of ours, are we now going to allow a per-ple from a distant shore to come here and openly seize the tresture, while we stand idly locking ou? Yielding witnest a word? Nay! they not only seek to anatch the prize from our ver hands, but they even have the audicity to fatte: the game within our precincts before its final re-

They have devastated our oysterfields, obstructed the navigation of our smaller streams, deprived us of our legal rights, and trample i our statutes in the dust. Kouse! ye knights of the "Little Hatchet," sheathe your swords no more till the last footsteps of the invader have grown cold on the sands of the Potomac. And thereby prove to these Bestern Shore bandis. that our hearts are valiant as of yore, and our honor as durable as the everlasting hills.
